## AN IMPORTANT DECISION.

**The Secretary of the Interior on Placer Mines.**

The Secretary of the Interior has rendered an important decision not yet promulgated, declaring illegal and void the famous circular issued by Secretary Teller, relative to placer claims, dated September 22, 1882, and the amendment of section 8 thereof, dated December 9th, of the same year. He decides: First—That the area, which may be embraced in a placer application is not limited; and, second—That an expenditure of \$500 upon a claim applied for, whether the same embraces one or more locations, entitles the applicant to patent.

The case came up on appeal from an adverse decision argued by E. C. Ford, Esq., before General Sparks, Commissioner of the General Land Office, in the matter of the application of the Good Return Mining Company, located in Placer county, California.

That a clear understanding may be had as to the importance of and the radical changes made by this decision, it is necessary to publish herewith those portions of the circulars affected. Paragraph No. 8 of the original circular reads as follows:

"No application by any association of persons for patent to a placer claim will be allowed to embrace more than one hundred and sixty acres, nor will any application be entertained that embraces more than one location."

The amended and explanatory circular of December 9th, reads as follows:

"No application by any association of persons for patent to a placer claim will be allowed to embrace more than one hundred and sixty acres; and not less than \$500 worth of work must be shown to have been expended upon or for the benefit of each separate location embraced in such application. If an individual becomes the purchaser and possessor of several separate claims of twenty acres each or less, he may be permitted to include in his application for patent any number of such claims contiguous to each other, not exceeding the aggregate one hundred and sixty acres, but upon or for the benefit of the original claim or location so embraced, he or his grantors must have expended the sum of \$500 in improvements."

The fact of ex-Senator W. M. Stewart having purchased a dwelling house in Carson and expressed his intention to reside here, seems to cause much comment and trepidation in certain Reno circles. Surely a man has a right to select the most pleasant place and best society.—Carson Tribune.

Certainly, and every school boy in the State knows that a "pleasant place and best society" was what the ex-Senator was hunting and what induced him to take up his residence in Carson.—Times-Review.

The silver dollar is never complained of by the workman. It is the friend of labor and industry. Times-Review.

THANKSGIVING.

In the solitude of the primeval forest, beset with privations and perils, the early settlers of the commonwealth celebrated the first festival of Thanksgiving to the Almighty God in recognition of His great goodness. Year by year successive generations have kept the day and hallowed it in glad reunion and service of praise.

Let all the people on this day, in the sanctuary and at the fireside, acknowledge their dependence upon the giver of all good, and lift up their hearts in earnest gratitude for the manifold blessings of his bounty. May the tribute of thankfulness and praise be made most acceptable by deeds of charity and love to the needy and stricken ones, so that even the least and the weakest shall bless the day and its holy influences.

The Dollar is Safe.

The New York Tribune's Washington dispatch says: It is pretty well understood that the President will recommend the suspension of the coinage of buzzard dollars, and it is generally believed that an overwhelming majority of the Democrats in Congress will refuse to agree to it. There are a few Democratic Representatives, of whom Randall, perhaps, may be taken as a type, who are for the outright repeal of the Bland law, as the necessary first step toward securing an international ratio between gold and silver, and because they are opposed to clothing the Secretary of the Treasury with the power to coin money in the exercise of his own discretion. There are a few other Democrats who desire to see the coinage go on, but who have begun to cry for an honest silver dollar.

Unlawful Fencing of Public Lands.

Advices have been received at the Interior Department to the effect that the cattle men in the western Territories are generally observing the proclamation by President Cleveland, last August, directing the removal of fences inclosing public lands. In Wyoming, however, the owners of cattle ranches have not only refused to remove fences already constructed, but have begun to extend them, and in those cases the Attorney-General has been requested to bring suit to compel the observance of the law. The point has been raised whether cattle men may fence in their land when the tracts belong to them, but surround areas of public lands. This has been declared in the negative, the Department holding that access to public lands must not be restricted.

The most absurd rumor that has been put in circulation for many months past is the one that Mr. Randall will be a candidate for Speaker against Mr. Carlisle, and that he expects to be elected by a combination of Republicans and the protective tariff Democrats. It is needless to say that Mr. Randall will not be a candidate for Speaker, and it is needless to say that if he was a candidate he would not receive a single Republican vote. Mr. Carlisle's administration of the office of Speaker of the late Congress is admitted by the Republicans to have been fair and impartial. Mr. Randall will be appointed Chairman of the Appropriation Committee, the only position he desires.

We regret that General Powning has let his foot slip in discouraging the acquisition of more territory for Nevada. His principal party opponent for the United States Senate, W. M. Stewart, is turning the proposition—which is a good one—to account, and as we feel personally friendly towards the General's candidacy we hope he will think better of the scheme, take the back track, and give it his support.—Times-Review.

The JOURNAL is not opposed to more territory, and would be glad to have all east of the Sierra Nevada, and the southern part of Idaho, and southeastern Oregon. We but contend that it is not absolutely essential to have more to save the State.

Elko county has at the present time a pretty healthy Treasury, there being over \$100,000 in her vault.

SENATOR-ELECT MITCHELL.

A Denial of the Report That He is Pledged to the Administration.

A Washington dispatch says: Well informed Oregon Republicans wholly discredit the statements sent from Portland to the Eastern newspapers in regard to the alleged "pledges" given by Senator-elect Mitchell to support the Democratic administration in consideration of certain votes cast for him by the Democratic members of the Legislature. It is said by Senator Mitchell's friends here that it has been well-known for some months in Oregon that, in case of his candidacy, he would receive the votes of a number of Democratic members from eastern Oregon, not in consideration of any pledges affecting his future course as a Senator, but as a reward for his past services in behalf of the development of that part of the State. These members, it is said, recognized that there was no prospect of electing a Senator who belonged to their own party, and made no secret of their determination to vote for Mitchell, if the time should come when, by so doing, they could help to elect him. Mitchell's friends in Washington have no doubt that he will act with his party on all political questions.

The Estimate of Emma Nevada.

The press of San Francisco has made up its mind about Emma Nevada as a singer. They all agree that she has personal magnetism in a remarkable degree.

The Argonaut says: "Listening severely, one better appreciates Nevada's technical excellence in the concert-room. Her voice has unmistakably gained in breadth and strength during the past few months. It is high, clear, silvery, sweet and supple, and in a world where singers are growing few day by day, she is one of the few."

The Ingleside says: "When an artist is thoroughly advised, and much is expected of her, it is everything that she holds her own under the severe test of singing in modern dinner dress; without accessories and without excitement, which helps so much, an American soprano vindicated her right to all the laurels she has ever earned. As an actress she is second to no prima donna, except, perhaps, Nilsson. Without her singing voice Nevada could take a prominent position upon the American stage; as it is, she is easily incomparable as a concert artist. No one at the present time can match the sweetness of her voice, the brilliancy and affection of her execution and artistic spirit which is the guiding point, which makes the listener captive."

The San Francisco Bulletin says: There are two artists in the troupe, concerning whose performance there is no reserve of opinion. These are Mrs. Nevada herself and the tenor, Mons. Edmund Vergnet. The others are satisfactory, but could easily be replaced. Mrs. Nevada is now not simply a California girl who has risen to prominence, but a thorough artist, with a voice of remarkable quality and a perfection of technique rarely attained.

A response to such applause as followed the singing of the cavatina could not be denied, and the first notes of "Sweet Home" caused a renewal of the demonstrations. Her singing of this pathetic little song was superb. Simple, eloquent, with the soft, magnetic tone so rarely heard in combination with such delicacy of execution, the plaintive notes went home to every heart."

Some criticisms have been colder, but these appear to be fair and impartial estimates and represent probably the general verdict.

The San Francisco Office.

It is not believed that the offices of Postmaster, Marshal and Surveyor of the Port of San Francisco will be filled until after the meeting of Congress. H. I. Willey, the Surveyor-General, called on Postmaster-General Vilas Monday, and made a strong argument in favor of the appointment of Robert Hastings as Postmaster at San Francisco. Ex-Congressman Tully's claims are not considered favorable because he is not a resident of San Francisco. The chances appear to favor Hastings' appointment. The two leading candidates for the office of Surveyor, Judge Bradford and Wm. Gwin, are in Washington, and each hopes to get the place. Gwin especially is confident of success. John C. Maynard, Alfred Estell and J. Wolfskill are the most prominent candidates for Marshal, but there seems to be no haste about filling this office. E. E. Bell, the defeated candidate for Surveyor-General, says Maj. Hammond has promised him a \$2,000 office in his department.

BEN. BUTLER, THE CATTLE KING.

He Delivers the Annual Address Before the Rangers' Convention.

ST. LOUIS, Nov. 22.—The Second Annual Convention of the National Cattle and Horse Growers' Association was called to order in the large music hall of the Exposition building at 11:20 today by Col. R. D. Hunt. There were delegations present from all cattle-growing States and Territories, Utah, Colorado and Texas being especially strong. There were on the floor about 600 delegates, the representation from the Eastern States being nominal. Mayor Francis delivered an address of welcome in which he spoke of the wonderful growth of the cattle interest. General Brislin, U. S. A., the first Vice President responded.

General Butler delivered the annual address, in which he recommended the consideration of diseases of cattle; the improvement of breeds; the transportation and discrimination against shippers of live stock; the formation of the International Government Commission to consider the question of restriction upon American beef in Europe; the necessity of substituting some mechanical appliance to designate cattle, and thus do away with hide destroying brands; the formation of a special association of horse-growing association; the necessity of practical national legislation through which alone existing local troubles can be settled, and, finally, the consideration of the several national associations devoted to the cattle interests of the country.

Prof. E. H. Moore, of Colorado, read a paper upon "The Cattle Industry of the United States," also abounding with statistics. Strong grounds were taken in favor of national quarantine laws, the point being warmly applauded. Touching the subject of illegal fencing of the public lands, the speaker said:

This is as much condemned by range men as it would be by Connecticut farmers. We only want what the law gives us—the right to occupy these lands until the settler comes; and now, that we can come from our ranches to the Convention in palace cars, it is plain to see that the days of the rangers are numbered. As the Indian gave way to the pioneer, so must the cowboy go before the settler, and ranches take the place of ranges, until the eight million acres of land now roamed by cattle shall team with villages and model farms for the cultivation of refined cattle, cared for, not by cowboys with revolvers, but by cowboys with brains.

The Chair was authorized to appoint a Committee on Credentials, and recess was taken until 3 o'clock.

It is remarkable that any citizen of Nevada should entertain such views upon the silver question as are expressed by General R. M. Clarke, and it is more surprising that any journal in the State should publish them.—Times-Review.

This voting with one hand and holding one's nose with the other is not pleasant.—Carson Appeal.

Very true, but that's what we all have to do sometimes.—White Pine Reflex.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? ### Kentucky Thoroughbreds for Rancho Del Rio.

The Bee says there arrived in Sacramento Monday evening on the West-bound overland train via the Southern Pacific, four highly bred yearling fillies consigned to Theodore Winters, proprietor of the Rancho del Rio stock farm. The fillies were purchased at the Belle Meade sale of yearlings in Kentucky on the 30th of last April, Capt. T. G. Moore doing the bidding for Mr. Winters. The fillies are bred as follows: Chestnut filly, by Enquirer, dam Orphan Girl (dam of Mamie Fields, Harriet and Edgerfield), by Muggios out of Hiawatha's dam; \$475. Chestnut filly, by Enquirer, dam Analine, by Jack Malone, out of Iodine, \$325. Chestnut filly, by Enquirer, dam Buttercup (half-sister to Ivy Leaf, Bayswater, Bay Bush, etc.) by Glen Athol, out of Bayflower; \$350. Bay filly, by Enquirer, dam Bribery, by Bonnie Scotland, dam Barbary's dam; \$400. The colts all arrived safely and will be a strong accession to the breeding ranks at Del Rio.

### A Beautiful Display.

### A Scarcity of Dimes.

Reports received at the Treasury Department indicate a growing scarcity of ten-cent silver pieces in all part of the country. In accordance with instructions from the Treasury Department, about \$40,000 in dimes were coined in the Philadelphia Mint about a week ago. These, however, were found insufficient to supply the demand, and the Superintendent of the Mint has been instructed to coin into dimes all the uncurrent subsidiary silver coin there may be at the Mint.

Victoria is to have a paid fire Department in place of a volunteer one. The Chief Engineer will draw a salary of \$700 a year.

At Victoria, B. C., recently there died a man who had for awhile received much sympathy as a victim of highway robbers. He was found suffering from a wound, and explained that they had "cleaved him out." It afterwards transpired, that having been lately married and spent all his money on his honeymoon trip, he had resorted to this method rather than disclose his financial condition to his wife.

An orthodox clergyman of note is said to have been among those who most warmly commended cremation among visitors one day this week to the Mount Olivet Crematory. Metal buttons not being reducible in retorts of this kind the company will request that nothing of that sort be allowed to remain upon clothing placed upon bodies intended for the furnace. False teeth are also said to withstand the heat of the hottest crematories.

## STATE LANDS.

Late Rules and Instructions Adopted By the State Land Office.

STATE LAND DEPARTMENT,  
CARSON CITY, Nevada.

For the convenience of applicants and agents for the purchase of State lands, it has been found necessary to adopt the following, in addition to the Rules and Instructions heretofore approved and published by this Department:

First—Applications for the purchase of unsurveyed lands cannot be entertained, and will in all cases be refused.

Second—No application for the purchase of any lands will be received until the official plats have been filed in this office.

Third—Contracts for the purchase of land may be signed by the applicant or agent.

Fourth—In case full payment is made on the application, or contract, of any person since deceased, an order of the Court having jurisdiction of the estate of the deceased is required, directing to whom the patent shall issue.

Fifth—Applications to purchase land, and the money deposited thereof, cannot be withdrawn except for such part thereof as the State may, for any cause, be unable to convey. In case there are two or more applicants for the same land, all can withdraw except the one entitled to purchase.

Sixth—The legal representative of a deceased applicant entitled to withdraw, can do so by presenting the duly attested order of any Court having jurisdiction of the estate of deceased.

Seventh—A deed from the applicant invests the grantee with the right to make full payment and receive the patent (in the name of the applicant) or to withdraw money deposited in case the sale cannot be completed.

Eighth—Patents will invariably issue in the name of the applicant, except in case this Department is legally notified of the death of such applicant, in which case patent will issue as provided in rule fourth.

Ninth—Orders of Court above referred to must specifically state the act and thing to be done by the attorney or person authorized, and must accurately describe the land by legal subdivision of survey as written in the application.

Tenth—Where an existing valid application for a tract of land has been filed, all after applications for the same tract must be accompanied by affidavits of preferred right based upon occupancy or possession dating prior to the first application to purchase. See section 13, page 105, Statutes 1885. All contents must be inaugurated prior to six months from date of approval of the land by the General Government to the State. Blanks for this purpose will be furnished from this office.

Eleventh—An affidavit stating the land applied for is not immediately contiguous to a stream, spring or lake, will be required with each application for land at the rate of \$1 25 per acre.

Twelfth—Land lying immediately contiguous to a stream, spring or lake, is \$2 50 per acre outside the railroad limits, and \$5 00 per acre inside those limits.

### HOW STATE LANDS ARE SOLD.

The State of Nevada has at the present time nearly 1,750,000 acres of land for sale, consisting of timber, agricultural and grazing lands, that can be selected from any unappropriated public lands within the State, wherever and whenever desired—the sixteenth and thirty-sixth sections included. Any citizen, resident or non-resident, can purchase from forty to six hundred and forty acres, and is not confined to one application, but can make as many applications as will in the aggregate comprise six hundred and forty acres. The presence of applicant at this office is not demanded. The application can be signed by applicant or authorized agent. Agricultural and grazing lands not immediately contiguous to streams, springs or lakes are sold at \$1 25 per acre, excepting forfeited lands that have been approved as double minimum, which are \$2 50 per acre. Land immediately contiguous to any stream, spring or lake is \$2 50 per acre outside the railroad limits, and \$5 00 per acre inside those limits.

The applicant can pay in full or pay one-fifth at time of application, and then make contract to pay in twenty-

five years, with interest at the rate of six per cent. per annum. (Interest, only, payable annually.) The party contracting can make full payment at any time and obtain patent. The State has no mineral lands—these are reserved by the United States Government.

### TIMBER LANDS.

These lands are graded by the State Board of Regents. Two classes have been established—the first class, consisting of lands producing saw timber, or those covered with a thick growth of timber suitable for wood, are sold for \$2 50 per acre. The second class, consisting of lands less heavily timbered, are sold for \$1 25 per acre. Timber lands are sold for cash only; full payment to be made at the time of application.—Land Laws of Nevada, from page 101 to 108, inclusive, Statutes 1885. C. S. FREEDLE, Land Register.

### The Vice President Dead.

INDIANAPOLIS, Nov. 25.

Vice President Hendricks died this afternoon about 5 o'clock. He attended a reception last evening and complained of feeling unwell. This morning he rapidly grew worse until he expired.

A London dispatch from Madrid states that King Alfonso died at 9 o'clock yesterday morning of consumption, accelerated by dysentery. The widow of the King is completely prostrated by his death.

The Ohio Democrats are willing to vote for Foster to beat John Sherman.

Edmunds occupies the same position he did when Arthur was President. There is no Vice President, and should Cleveland die or resign Edmund would become President.

### COAST NOTES.

Nearly 40,000 boxes of raisins were shipped from Colton during October.

Eastern capitalists have invested \$250,000 in an irrigating canal at Gila Bend, A. T.

Among the debris washed ashore by floods at San Luis Obispo were two human skulls.

Oranges of this year's crop are already being shipped from Pleasant valley, Solano county.

An eighteen-year-old girl recently shot and killed a large-sized mountain lion in Fresno county.

The shipments of paper pulps made from vices on the Mohave desert average fifteen to twenty tons daily.

A Chinese merchant who recently left Portland for Hongkong took with him an Indian wife and four children.

An unmistakably leprous Chinaman has been discovered hidden away in the Chinatown of Sonora, Yucatan county.

A grizzly bear weighing 1100 pounds, which had killed many herd of stock, was shot at Maggie gulch, M. T., recently.

The troops which went to Seattle have all been ordered back to Vancouver after a stay of nine days, which partook of the nature of a picnic.

A Special Commissioner has been sent to the Indians at Banning, San Bernardino county, to establish a school there similar to the one at Carlisle, Pa.

The big dredger Hercules now on the dock at Mare Island is the first of its kind made in the world. It is of the same pattern as those in use on the Panama canal.

An Arizona proprietor owes his life to the sagacity of his horse. He was taken sick and lay in camp three days perfectly helpless until finally the horse went several miles to a camp and by his actions induced some one to bring assistance to his sick master.

The Tacoma Chamber of Commerce have sent a memorial to President Cleveland setting forth the fact of the continual smuggling of Chinese across the border from British Columbia, and asking for the assistance of the forces of the United States in putting an end to it.

In the mountains above Chico the residents along a timber flume have a novel way of getting their mail. It is started on a raft from the head of the flume at regular dates, and the people below watch for it, take out what belongs to them and then send the raft with its precious cargo on the way.

The Los Angeles Paint Company has incorporated, with capital stock fixed at \$100,000.

Riverside, with characteristic enterprise, will raise \$10,000 and hold its forthcoming annual citrus fair in the city of Chicago.
